(Officers' Gym) (Officers' Open  
Mess)  
(Building No. 432)  
HABS No. UT-125-L  
Page 1

Built in 1943, this large, 2-story structure sits due north of the Control Tower (#429) in the middle of the block southwest of the intersection of A Street and 4th Street. It was built as a "Mobilization," "Semi-Permanent" type of construction from plan 700-3671 by Ford T. Waits & Co. for \$32,000.00.

Building 432 is a wood frame structure clad with horizontal siding. Its foundation is of concrete piers and beams, while the floors are both concrete and wood. The first story measures 71 feet-6 inches by 173 feet-10 inches, while the second story is 71 feet by 101 feet, for a total of 16,461 square feet. The gabled roofs are covered with asphalt roll roofing. The windows are tall, 12/12 double hung wood sash assemblies or shorter 8/8 units. The west side of the one-story section has a flat roof, while a shed-roofed, open porch runs along the entire length of the west wall of the 2-story section.

The building was heated by a coal-fired Kewanee steam boiler and radiators. The interior contained 8 water closets, 8 lavatories, 4 urinals, plus sinks, water fountains, an 82 gallon water tank and a walk-in cooler.

Its maintenance neglected, #432 has had roof leaks which have caused severe damage to the buildings floors. Despite its shabby appearance, the building seems structurally sound, based on the lack of roof ridge deflection or wall bowing.
